Name:

Abenanthan P

EXPERIMENT 9

Design input forms that validate data (e.g., email, phone number) and display error messages using HTML/CSS, JavaScript (with Validator.js)

AIM:

The aim is to design input forms that validate data, such as email and phone number, and display error messages using HTML/CSS and JavaScript with Validator.js.

PROCEDURE:

Step 1: Setting Up the HTML Form

Start by creating an HTML form with input fields for the email and phone number.

HTML:

```
<!DOCTYPE html>
```

```
<html lang="en">
```

```
<head>
```

```
<meta charset="UTF-8">
```

```
<meta name="viewport" content="width=device-width, initial-  
scale=1.0">
```

```
<title>Form Validation</title>
```

```
<link rel="stylesheet" href="style.css">
```

```
</head>
```

```
<body>
```

```
<div class="container">
```

```
  <form id="myForm">
```

```
    <h2>Contact Form</h2>
```

```
    <label for="email">Email:</label>
```

```
    <input type="text" id="email" name="email" placeholder="Enter  
your email">
```

```
    <span id="emailError" class="error"></span>
```

```
    <label for="phone">Phone Number:</label>
```

```
    <input type="text" id="phone" name="phone" placeholder="Enter  
your phone number">
```

```
    <span id="phoneError" class="error"></span>
```

```
    <button type="submit">Submit</button>
```

```
  </form>
```

```
</div>
```

```
<script
src="https://cdnjs.cloudflare.com/ajax/libs/validator/13.6.0/validator.
min.js"></script>

<script src="script.js"></script>

</body>
</html>
```

Step 2: Styling the Form with CSS

Next, add some basic styling to make the form look nice.

CSS:

```
/* style.css */
```

```
body {
  font-family: Arial, sans-serif;
  background: linear-gradient(to right, #cf79f1, #5b75eb);
  display: flex;
  justify-content: center;
  align-items: center;
  height: 100vh;
  margin: 0;
}
```

```
.container {
  background: #f0f0f0;
  padding: 25px;
```

```
border-radius: 8px;  
width: 320px;  
box-shadow: 0 4px 12px rgba(0,0,0,0.2);  
}
```

```
h2 {  
  text-align: center;  
  margin-bottom: 15px;  
}
```

```
form {  
  display: flex;  
  flex-direction: column;  
}
```

```
label {  
  margin-top: 10px;  
  font-weight: bold;  
}
```

```
input {  
  padding: 10px;  
  margin-top: 5px;  
  border: 1px solid #ccc;  
  border-radius: 5px;  
  transition: 0.3s;  
}
```

```
input:focus {  
  border-color: #007bff;  
  outline: none;  
}
```

```
button {  
  margin-top: 15px;  
  padding: 10px;  
  background-color: #005eff;  
  color: white;  
  border: none;  
  border-radius: 5px;  
  cursor: pointer;  
}
```

```
button:hover {  
  background-color: #0c49e2;  
}
```

```
.error {  
  color: red;  
  font-size: 0.85em;  
  height: 12px;  
}
```

Step 3: Adding JavaScript for Validation

Finally, add JavaScript to validate the input fields using Validator.js and display error messages.

JAVASCRIPT:

```
/* script.js */
```

```
document.getElementById('myForm').addEventListener('submit',  
function(e) {
```

```
    e.preventDefault();
```

```
    let email = document.getElementById('email').value.trim();
```

```
    let phone = document.getElementById('phone').value.trim();
```

```
    let emailError = document.getElementById('emailError');
```

```
    let phoneError = document.getElementById('phoneError');
```

```
    // Clear previous errors
```

```
    emailError.textContent = "";
```

```
    phoneError.textContent = "";
```

```
    let isValid = true;
```

```
    // Email validation
```

```
    if (!validator.isEmail(email)) {
```

```
        emailError.textContent = "Enter a valid email address";
```

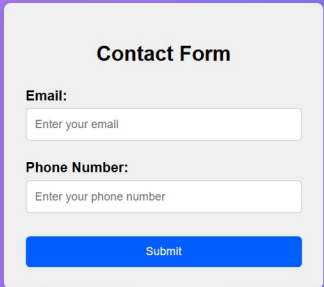

```
        isValid = false;
```

```
    }
```

```
// Phone validation (India format optional improvement)
if (!validator.isMobilePhone(phone, 'any')) {
    phoneError.textContent = "Enter a valid phone number";
    isValid = false;
}

// Success case
if (isValid) {
    alert("Form submitted successfully!");
    console.log("Email:", email);
    console.log("Phone:", phone);
}
});
```

OUTPUT:

The image shows a contact form titled "Contact Form" centered on a purple-to-blue gradient background. The form is a light gray box with rounded corners. It contains two input fields: "Email:" with a placeholder "Enter your email" and "Phone Number:" with a placeholder "Enter your phone number". Below these fields is a blue "Submit" button.
